

All About Cryptocurrency Scams

Cryptocurrency is as lucrative for scammers as it is for investors. Here is a flashlight view of the popular cryptocurrency scams and ways to steer away from them.

How Do The Scams Work

- Phishing the cryptocurrency passwords and private keys by developing fake websites.
- Stealing personal information by using malware download links and programs.
- Unregulated brokers and exchange firms charging huge commission or simply stealing money.
- Ponzi schemes encouraging investors to maximize profits.

Tips To Secure Yourself

- Avoid phishing emails and calls asking for your details on a promise of sharing funds.
- Avoid clicking on unknown email attachments or program links on social media.
- Check if the broker or firm is legitimate before making an investment.
- Trust your instincts and steer away from offers that promise huge profits.
