

# Major AI Trends For 2020

AI forms the bedrock of the era of connected mobility and automation.

- 01** Evolution of robotization will increase efficiency and free human intelligence for core tasks.
- 02** Data access will enable increased use of AI-powered real world simulations.
- 03** Refined personalized services based on coupling of AI-based applications with advanced location intelligence.
- 04** Use of AI's capabilities such as pattern recognition and predictive functioning to boost cyber security.
